Please Note: In addition, once admitted to the MAT program, the student must request ALL official transcripts from every university/college previously attended to be sent to the GaPSC. - 3 It can often take several days for a transcript request to be processed. When your transcripts are received at Thomas University, the Graduate Information Office will contact you, but if you have not received confirmation within 14 days of making a transcript request, please contact us at **(229) 231-1860**.

The Master of Arts in Teaching (MAT) in Elementary Education program is designed for paraprofessionals who have a bachelor's degree, career-changing professionals with a bachelor's degree, and teachers who hold a Provisional certificate and want to earn an Induction certificate at the master's degree level.

What you learn:

The curriculum provides both knowledge of the content and instructional strategies required of PK-5 educators. Instead of completing a traditional undergraduate teaching preparation program, the MAT in Elementary Education allows a person to obtain certification in grades PK-5 while completing an advanced degree. Graduates of this program will enter the profession at the master's degree level (T5) and garner a higher compensation than those who enter at the bachelor's degree level.

How you learn:

Because highly experienced faculty deliver courses in the MAT in Elementary Education synchronously and asynchronously online, students will be a part of an educational program tailored to meet their personal and professional needs. We employ a cohort model with Fall and Spring semester courses meeting for 16 weeks every other week on Saturdays, with independent online coursework in the off weeks. In the Summer semester, courses will meet each Saturday for 8 weeks. Field experiences will be offered in localities where students live. The MAT in Elementary Education requires 48 credit hours.*

*Any MAT student admitted provisionally must register for EDU 600 during the 1st 8-week semester. This course is only offered on Tuesday evenings from 5:45 pm - 8:45 pm. All other MAT courses in the students' program will be taken on Saturday's.

Georgia wants YOU...to be a teacher!

For:

- Paraprofessionals who have a bachelor's degree
- Career-changing professionals with a bachelor's degree
- Teachers who hold a Provisional certificate and want to earn an Induction certificate at the master's degree level.

What you learn:

The curriculum provides both knowledge of the content and instructional strategies required of P-5 educators. Instead of completing a traditional undergraduate teaching preparation program, the MAT in Special Education General Curriculum Elementary Education allows a person to obtain certification in grades P-5 while completing an advanced degree. The program prepares teachers to provide instruction or instructional support to all students in grades P-5, including those with disabilities whose individual education plan indicates instruction using the general statewide assessments. Graduates of this program will enter the profession at the master's degree level (T5) and garner a higher compensation than those who enter at the bachelor's degree level.

How you learn:

Students coming to this program may be working full-time in schools or another career, so we understand that our program must be both high-quality as well as flexible. Because highly experienced faculty deliver courses in the MAT in Special Education General Curriculum Elementary Education (P-5) synchronously and asynchronously online, students will be a part of an educational program tailored to meet their personal and professional needs. We employ a cohort model with Summer and Fall semester courses meeting for 16 weeks every other week on Saturdays, with independent online coursework in the off weeks. In the Summer semester, courses will meet each Saturday for 8 weeks. Field experiences will be offered in localities where students live. The MAT in Special Education General Curriculum Elementary Education (P-5) requires 57 credit hours.

*Any MAT student admitted provisionally must register for EDU 600 during the 1st 8-week semester. This course is only offered on Tuesday evenings from 5:45 pm - 8:45 pm. All other MAT courses in the students' program will be taken on Saturday's.

**Applicants who have passed the Content/Professional Elementary Education GACE Exam prior to admission (or have a verified passing score by the first day of class for the semester the applicant is accepted into the program) are exempted from 9 credit hours/3 classes, bringing total credit hours down to 48.

Career Outcomes:

Upon completion of this program, students will have earned a master's degree in Special Education General Curriculum Elementary Education (grades P-5).
