Goals and Focus of the Program:

The Master of Arts in Curriculum & Instruction empowers educators to deepen their instructional practice and design engaging, inclusive learning experiences across diverse educational settings. Designed for teachers who aspire to leadership roles such as curriculum coordinators, instructional coaches, or team leaders. The program emphasizes inclusive, student-centered design and instructional strategies that are research-driven and immediately applicable in the classroom. Grounded in Universal Design for Learning (UDL), backward design, and culturally responsive pedagogy, this fully online program helps educators create engaging, equitable curriculum that meets the needs of multilingual learners, students with disabilities, and all learners across grade levels. Educators will explore assessment strategies, differentiated instruction, curriculum mapping, technology integration, and multiple intelligences theory – all through a lens of reflective, inclusive practice.

Program Design:

Built for working educators, this fully online program combines live, interactive weekly class sessions with the convenience of asynchronous time for reading, reflection, and project development. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time, and class sessions meet online the same evening each week from 4:45-8:45. The 30-credit program can be completed in approximately two years.

Prerequisites:

To apply, students must hold a bachelor's degree from a regionally accredited institution (minimum GPA of 2.5) and have access to a classroom and students throughout the program to support field study and application of course content.

Degree Requirements and Career Outcome:

To earn the Master of Arts in Curriculum & Instruction, students must successfully complete all required coursework and a course-embedded capstone project. **Please note: This program does not lead to initial teacher certification, licensure, or endorsement.**

PLAN OF STUDY AGREEMENT: (Initial each line, then sign and date)

- I have read and understand all information in the Student Information Packet, including important information regarding admissions, transferring credits, refunds, enrollment, and tuition and fees.
- I understand that this program will be delivered in a fully online format through a combination of synchronous and asynchronous learning activities.
- I understand the Online Masters for Teachers cohort requires all students to complete their coursework with grades of C or better.
- I understand that I can only re-take two courses, one time each.
- I understand that I am expected to submit a course evaluation at the conclusion of each course.
- I have read and understand this Plan of Study and agree to this Plan of Study Agreement.

Goals and Focus of the Program:

The Master of Arts in Early Childhood Education/Special Education is designed for certified teachers who want to expand their expertise in both early childhood and special education. This unique dual-focus program equips educators to support the developmental and learning needs of young children—from Pre-K through Grade 3, including those with disabilities and diverse learning profiles. Aligned with Connecticut Cross-Endorsement Regulations, the program prepares educators for the Integrated Early Childhood/Elementary N–3 and Special Education N–K (#113 endorsement). Coursework integrates child development, inclusive curriculum design, emergent literacy, assessment, and family engagement to prepare professionals to lead classrooms that are both nurturing and inclusive.

Program Design:

Built for working educators, this fully online program combines the flexibility of asynchronous learning with the richness of live weekly online sessions. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time and live class sessions meet one evening per week from 4:45 PM – 8:45 PM. This 30-credit hour program has an accelerated timeline which can be completed in approximately 18-months. Practicum placements are finalized annually, and applications for practicums are due by February 1st.

Prerequisites:

To apply, students must hold a bachelor's degree from a regionally accredited institution (minimum GPA 2.5), have ongoing access to a classroom and students for field-based learning, and be committed to advancing inclusive, developmentally appropriate instruction for all young learners. Applicants seeking cross-endorsement must possess a valid Connecticut teaching license. *The program also welcomes administrators and teachers in early childhood and preschool settings, including those in non-public school environments; however, they are not eligible for cross-endorsement or state licensure through this program.*

Degree Requirements and Career Outcome:

To earn the Master of Arts in Early Childhood Education/Special Education, students must successfully complete all required coursework, and a capstone project embedded within the final independent study course along with fulfilling practicum requirements in Pre-K and Kindergarten settings. Upon completion students who possess a valid Connecticut teaching licensure will be eligible to apply for cross-endorsement under Connecticut's Integrated Early Childhood/Elementary N–3 and Special Education N–K (#113) endorsement. **Please note: This program does not lead to initial teacher certification.** Individuals pursuing the #113 endorsement must also pass the Pearson Early Childhood Test and the Pearson Foundations of Reading Test.

Goals and Focus of the Program:

The Master of Arts in Instructional Technology at the University of Saint Joseph equips educators to design inclusive, digitally rich instruction that meets the needs of today's diverse learners. Built for working professionals, the program emphasizes the meaningful integration of technology to enhance engagement, accessibility, and learning outcomes across K-12 settings. This fully online program prepares educators to develop dynamic, tech-integrated digital learning environments that empower students – particularly multilingual learners and those with special needs. Educators explore instructional design, blended and hybrid learning models, assistive technology, digital assessment, and the ethical and innovative use of emerging tools like generative AI.

Program Design:

Built for working educators, this fully online program combines the flexibility of asynchronous learning with the richness of live weekly online sessions. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time, and class sessions meet online the same evening each week from 4:45-8:45. The 30-credit program can be completed in approximately two years.

Goals and Focus of the Program:

The Master of Arts in Education: Arts Integration at the University of Saint Joseph is designed for educators who believe in the power of the arts to elevate learning, increase engagement, and support diverse learners. This innovative program equips teachers to integrate visual arts, music, theater, and creative writing into core academic instruction across grade levels and content areas. Rooted in Multiple Intelligences Theory, this online/hybrid program prepares educators to observe learners more deeply, design differentiated instruction, and create inclusive learning environments, where all students can thrive. Live, on-line synchronous courses are interspersed with in-person learning experiences on the USJ campus that open new perspectives on curricular applications of multiple intelligences, theatre, and museum education.

Program Design:

Built for working educators, this hybrid program combines the flexibility of asynchronous learning with the richness of live weekly in-person and online sessions that promote collaboration and real-time engagement. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time and live class sessions meet one evening per week from 4:45 PM – 8:45 PM. This 30-credit hour program has an accelerated timeline which can be completed in approximately 18-months.

Prerequisites:

To apply, students must hold a bachelor's degree from a regionally accredited institution (minimum GPA of 2.5) and have access to a classroom and students throughout the program to support field study and application of course content.

Degree Requirements and Career Outcome:

To earn the Master of Arts in Education with an Arts Integration Concentration, students must successfully complete all required coursework and a course-embedded capstone project. **Please note: This program does not lead to initial teacher certification, licensure, or endorsement.**

Goals and Focus of the Program:

The Master of Arts in Literacy program is built for dedicated PreK–12 educators, and provides a deep, research-based understanding of literacy development and equips you with the practical tools needed to support diverse learners across grade levels and content areas. Grounded in the science of reading, the program emphasizes evidence-based instructional practices, authentic assessment, inclusion-focused pedagogy, and classroom application. You will develop the advanced skills needed to deliver high-quality literacy instruction, design effective interventions, and understand the unique strengths and needs of every learner.

Program Design:

Built for working educators, this fully online program combines live, interactive weekly class sessions with the convenience of asynchronous time for reading, reflection, and project development. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time, and class sessions meet online the same evening each week from 4:45-8:45. The 30-credit program can be completed in approximately two years.

Goals and Focus of the Program:

The Master of Arts in Advanced Teaching in Special Education is designed for Connecticut-certified educators who want to deepen their expertise in supporting learners with disabilities across diverse K–12 settings. Grounded in current research and responsive to the real-world needs of today’s classrooms, the program equips educators with advanced knowledge in assessment, instructional planning, behavioral support, and collaborative practices. Key focus areas include evidence-based interventions in reading and mathematics, mental and behavioral health strategies, inclusive and differentiated instruction, and assistive technology integration. The program is fully aligned with Connecticut Cross-Endorsement Regulations and leads to a cross-endorsement in Comprehensive Special Education, PreK–12 (#165 Endorsement).

Program Design:

Built for working educators, this fully online program combines the flexibility of asynchronous learning with the richness of live weekly online sessions. The program follows a cohort model for peer support and community. Courses are offered in eight-week blocks, one at a time and live class sessions meet one evening per week from 4:45 PM – 8:45 PM. This 30-credit hour program can be completed in approximately two years.

Prerequisites:

To apply, students must hold a bachelor’s degree from a regionally accredited institution (minimum GPA 2.5), have ongoing access to a classroom with students to complete required field-based assignments, and possess a valid Connecticut teaching certificate.

Degree Requirements and Career Outcome:

To earn the Master of Arts in Advanced Teaching in Special Education, students must successfully complete all required coursework, a course-embedded capstone project that synthesizes learning across the program. Upon completion students will be eligible to apply for cross-endorsement under Connecticut’s Comprehensive Special Education, PreK–12 (#165) endorsement. **Please note: This program does not lead to initial teacher certification.** Individuals pursuing the #165 endorsement must also pass the Praxis 2 for Special Education (Core Knowledge and Mild to Moderate Applications) and the Pearson Foundations of Reading.

Plan of Study: Master of Arts in Special Education Concentration on Classroom Strategies to Support Neurodiverse Learners

Name

Address Street City State Zip Code

Primary Phone () E-mail Address

Goals and Focus of the Program:

M.A. in Special Education Concentration in Classroom Strategies to Support Neurodiverse Learners is designed for passionate educators who want to increase their knowledge, skills, and evidence-based strategies to support children with disabilities and other neurodiverse learners in general education settings across developmental levels, age groups and content areas. Graduates are prepared to assess the needs of individual students and to design and implement inclusive classroom strategies that support academic, behavioral, and social-emotional growth of every learner. Graduates are prepared to lead in general or special education settings, applying research-based strategies that foster equity, inclusion, and meaningful access to learning. It is ideal for educators seeking to strengthen their professional knowledge and instructional practices without pursuing cross-endorsement.

Program Design:

Built for working educators, this fully online program combines live, interactive weekly class sessions with the convenience of asynchronous time for reading, reflection, and project development. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time, and class sessions meet online the same evening each week from 4:45-8:45. The 30-credit program can be completed in approximately two years.

Prerequisites:

To apply, students must hold a bachelor's degree from a regionally accredited institution (minimum GPA of 2.5) and have access to a classroom and students throughout the program to support field study and application of course content.

Degree Requirements and Career Outcome:

To earn a Master of Arts in Special Education, students must successfully complete all required coursework and a course-embedded capstone project. **Please note: This program does not lead to initial teacher certification, licensure, or endorsement.**

Goals and Focus of the Program:

The Master of Arts in TESOL at the University of Saint Joseph prepares certified teachers to become leaders in teaching English to speakers of other languages in K-12 settings. As classrooms across the U.S. grow increasingly linguistically and culturally diverse, the need for skilled, compassionate educators who can support multilingual learners has never been greater. Grounded in the latest research and best practices, this program empowers teachers to foster language equity and create inclusive classrooms where all students thrive.

Program Design:

Built for working educators, this fully online program combines live, interactive weekly class sessions with the convenience of asynchronous time for reading, reflection, and project development. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time, and class sessions meet online the same evening each week from 4:45-8:45. The 30-credit program can be completed in approximately two years.

Prerequisites:

To apply, students must hold a bachelor's degree from a regionally accredited institution (minimum GPA of 2.5) and have access to a classroom and students throughout the program to support field study and application of course content. Applicants seeking cross-endorsement must possess a valid Connecticut teaching license. *The program also welcomes administrators and teachers in Pre-K-12 settings, including those in non-public school environments. These professionals are eligible for admission and will benefit from the program's specialized content; however, they are not eligible for cross-endorsement or state licensure through this program.*

Degree Requirements and Career Outcome:

To earn the Master of Arts in TESOL Education, students must successfully complete all required coursework and a course-embedded capstone project. Upon completion students who possess a valid Connecticut teaching licensure will be eligible to apply for cross-endorsement under Connecticut's Teaching English to Speakers of Other Languages (TESOL), PK-12 (#111) endorsement and/or Bilingual, PK-12 (#009) endorsement. **Please note: This program does not lead to initial teacher certification.** Individuals pursuing the #111 endorsement must demonstrate written proficiency in English with a passing score on the Praxis 2 Core Academic Skills Test in Writing. Individuals pursuing the #009 endorsement must hold certification in Elementary Education for teaching in bilingual elementary settings, or the subject area to be taught in secondary bilingual settings. In addition, individuals must demonstrate written proficiency in English with a passing score on the Praxis 2 Core Academic Skills Test in Writing AND proficiency in the language of instruction through passing scores on the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI) and Writing Proficiency Test (WPT).

Goals and Focus of the Program:

The Master of Arts in Education: Personalized Professional Pathways (MAPPP) at the University of Saint Joseph offers educators a flexible and individualized graduate experience. Designed for experienced teachers and other educators who seek targeted professional growth, MAPPP empowers students to shape a master's degree around their own instructional goals and evolving classroom needs. Through a combination of core coursework, self-selected electives, and a personalized capstone project, students design a learning pathway that supports their unique vision for practice. Whether you're excited to build your knowledge and skill for integrating technology, engaging learners through arts-based instruction, or expanding inclusive teaching strategies to support neurodiverse and multilingual learners, MAPPP helps you turn your interests into expertise.

Program Design:

Built for working educators, this mostly online program combines live, interactive weekly class sessions with the convenience of asynchronous time for reading, reflection, and project development. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time, and class sessions meet online the same evening each week from 4:45-8:45. The 30-credit program can be completed in approximately two years. Students begin the MAPPP program with a foundational course that helps articulate professional goals and shape an individualized plan of study. Six self-selected pathway courses allow students to tailor their degree to their context and passions.

Prerequisites:

To apply, students must hold a bachelor's degree from a regionally accredited institution (minimum GPA of 2.5) and have access to a classroom and students throughout the program to support field study and application of course content.

Degree Requirements and Career Outcome:

To earn the Master of Arts in Education with a Personalize Professional Pathways Concentration, students must complete all required courses, six elective pathway courses, and a course-embedded capstone project. **Please note: This program does not lead to initial teacher certification, licensure, or endorsement.**

Plan of Study: Master of Arts in Special Education with Certificate In Dyslexia and Reading Disabilities

Name

Address Street City State Zip Code

Primary Phone () E-mail Address

Goals and Focus of the Program:

The M.A. in Special Education with a Graduate Certificate in Dyslexia and Reading Disabilities is designed for K–12 educators who want to deepen their expertise in effective, research-based reading instruction for students with dyslexia and other reading challenges. This highly targeted graduate program focuses on equipping educators with the knowledge and tools to make a meaningful difference in the lives of struggling readers—especially the 10–20% of students affected by dyslexia. Courses explore language and literacy development, diagnostic assessment, and intensive instructional interventions in phonics, word reading, fluency, vocabulary, reading comprehension, and writing. Educators will also learn to apply assistive technology and Universal Design for Learning principles to remove barriers and create inclusive reading environments.

Program Design:

Built for working educators, this fully online program combines live, interactive weekly class sessions with the convenience of asynchronous time for reading, reflection, and project development. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time, and class sessions meet online the same evening each week from 4:45-8:45. The 30-credit program can be completed in approximately two years.

Prerequisites:

To apply, students must hold a bachelor's degree from a regionally accredited institution (minimum GPA of 2.5), have access to a classroom and students throughout the program to support field study and application of course content, and be passionate about improving literacy outcomes for all students.

Degree Requirements and Career Outcome:

To earn the Master of Arts in Special Education and Graduate Certificate in Dyslexia and Reading Disabilities from the University of Saint Joseph, students must successfully complete all required coursework and a course-embedded capstone project. **Please note: This program does not lead to initial teacher certification, licensure, or endorsement.**

Goals and Focus of the Program:

The Master of Arts in Special Education: Transition, Advocacy and Planning Across the Lifespan is a program designed to meet the professional needs of accessibility coordinators, disability service professionals, transition coordinators, and educators supporting post-secondary transition planning. Students in the Special Education: Transition, Advocacy and Planning Across the Lifespan program will learn evidenced-based practices to address the needs of growing populations of students with disabilities in post-secondary education environments and develop equitable practices that support the learning of all students.

Program Design:

Built for working educators, this fully online program combines live, interactive weekly class sessions with the convenience of asynchronous time for reading, reflection, and project development. The program follows a cohort model for real-time collaboration and peer support. Courses are offered in eight-week blocks, one at a time, and class sessions meet online the same evening each week from 4:45-8:45. The 30-credit program can be completed in approximately two years.

Prerequisites:

To apply, students must hold a bachelor's degree from a regionally accredited institution (minimum GPA of 2.5). Related service professionals, special educators, case managers, and support services personnel are invited to participate in the program.

Degree Requirements and Career Outcome:

To earn the Master of Arts in Special Education, students must successfully complete all required coursework and a course-embedded capstone project.

Please note: This program does not lead to initial teacher certification, licensure, or endorsement.
